FLUID SEALS (INDIA)[®]
AN ISO 9001 : 2015 CERTIFIED COMPANY

FLUID SEALS INDIA[®] AN ISO 9001 : 2015 CERTIFIED COMPANY incorporated an in the year 2012, is India's leading manufacturer of Mechanical Seals & all types of Pump Spares. Our company pioneers in Designing, Manufacturing and Distribution of precision engineered Mechanical Seals and Fluid Sealing Solutions. We have set bench marks on performance, cost and service in our line of products and services offered by us. Our philosophy while attending a seal requirement has been to develop and supply spares for seals giving good performance or develop alternative design to enhance seal performance.

FLUID SEALS INDIA[®] suit standard pumps like, BHEL-WEIR, EBARA, Investa, Indian Dairy, Flowserve, Kishore, Khimline Sulzer, Kirloskar Brothers, Mather Platt, Microfinish, Raje Dia, Roto, Sam Turbo, Stork Johnson, Sulzer, Tushaco & Special Seals have been developed to suit Alfa Laval, Fristam, Pharma Lab, KSB, Grundfos, many mores.

REFURBISHMENT OF MECHANICAL SEALS

FLUID SEALS INDIA[®] have Refurbished, Re-Engineered & Indigenized the following models of multinational brands like JOHNCRANE, AESSEAL, SEALOL, SAFEMATIC, EAGLE BURGMANN, FLOWSERVE, LEAK- PROOF, CHESTERTON etc.

The company is being proficiently managed by the Managing Director, Mr. Majid Loriya. Owing to advanced manufacturing unit spread in an area of 2,240 square feet, we manufacture these seals as per the exact specifications and requirements of our clients, in an efficient manner.

These seals are widely demanded in various industries such as

Volumetric Pump Housing

Volumetric Pump Housing
& Ceramic Parts

Buffer Tank

Bowl

Buffer Tank Lower Lid

Centring Cup

Pick and Place

Scissor & Forceps Stand

Application

In Present modern world human life is been affected with plenty of health-related issues Pharma Industries have been manufacturing wide ranges of medicines for the curing the same. In such process proper Cleaning & sterilization of the wide range of the Change parts is most important to avoid the cross over contamination & ensure Product safety. For Such a crucial & critical application S Clean dose provides a hand to resolve the above issues. With Help of the S Clean brand Ultrasonic cleaning system user dose get assured for the proper cleaning process without any human interference as the system is completely Automated & Safety of the user & product to be cleaned is top most priority taken care in the process.

Above System is been used for cleaning the Change Parts used in Pharmaceutical Industries. It can be used to clean the contamination like the Oil, Wax & Other product contamination remained on the components during the changeover.

Process

- 1) Precleaning With Jet Spray 2) Tank Washing Spray Process 3) Soap Dispensing 4) Air Agitation Process
- 5) Tank Washing Spray Process 6) Ultrasonic Cleaning Process 7) Tank Washing Spray Process
- 8) Final Rinse with Air Agitation 9) Tank Washing Spray Process

Spherical Vacuum Concentrator

Salient Features :

- > cgm construction.
- > Totally enclosed untouched process.
- > Manufactured out of laboratory tested & certified quality stainless steel.
- > Heating options are available as steam, thermic oil, hot water etc.
- > PLC operated fully automatic system available.
- > WIP washing in place pressurized rotating water jet spray ball.
- > Digital process timer.
- > Digital temperature Controller.
- > The machine is user friendly & easy to operate.
- > Occupying minimum space.
- > Scraper stirrer can be added (optional) which can effectively increase the ratio of concentration & greatly increase the evaporation capacity.
- > The manhole is convenient for cleaning the interior while changeover of the product.
- > Provided with oil separator.

Spherical concentrators are suitable for Ayurvedic, Pharmaceutical, Dairy, Chemicals, Biological & other industries on the liquid concentration & recovery of organic solvents & other process.

Tech Sharad Engineering Pvt Ltd.

Super Critical Fluid Extraction Plant

40 Plus Immense Experience

A Superior & Economical World Class Technology for Quality Natural Products

The Current global trends show preference for products from natural sources. Also there is an increasing concern for safe, eco - friendly and pollution free manufacturing Process.

SCFE technology provides a ready and total solution to these challenges. Its superiority over the conventional technologies of extraction, especially for natural products in the food and pharmaceutical industry as well recognized.

SCFE is a two step process which uses a dense gas as a solvent e.g. Carbon Di Oxide (CO₂) for extraction, above its critical Temperature (31 Degree) and critical pressure (74 bar). The feed generally ground solid is charged into the extractor

Super Critical CO₂ is fed to the extractor through a high pressure pump (100 – 500 bar). The extract laden CO₂ is sent to a Separator (60 – 120 bar) via pressure reduction valve. At reduced temperature and pressure conditions, the extract precipitates out in the separator. The Extract free CO₂ stream , leaving the separator is then recycled to the extractor.

Advantages of SCFE

Commercial Applications :

- * Extraction of Natural Products such as Oils and Oleoresins , Flavours , Fragrances , Colour , Preservatives , Pesticides & Herbal Medicines.
- * De - Caffeination of Tea / Coffe.
- * Production of Micro and Mono Particles CO₂ as a Solvent.
- * Generally regarded as safe (GRAS) for food products.
- * Inexpensive.
- * Easily Available.
- * Non toxic , Non flammable and Inert to most Materials

- * Extract with delicacy and freshness Close to natural.
- * High potency of active components.
- * Longer Shelf life of extract.
- * No residual solvent.
- * Simultaneous fraction of extracts

Commercial Status :

- * World's 1st State of the art Super Critical Textiles Dyeing Plant Supplied to SASMIRA,Worli.**
*** Lab Scale SCFE plant supplied to IIT Bombay**

ASTRO MECH

STERILIZATION AND DEPYROGENATION TUNNEL

ABOUT

Established in the year 2000 we are one of the eminent manufacturers, suppliers and exporters of a wide range of Sterilizing & Depyrogenation Tunnel.

VISION

With the passing years, we are in the process of expanding our market base across East Europe, East / Middle Africa and the Indian Subcontinent. Our Vision is to gain many prominent clients from different sectors.

OUR PRODUCTS

Our Sterilizing & Depyrogenation Tunnel are manufactured using superior quality components, so that these deliver excellent performance and low maintenance cost.

Fabricated in compliance with Bureau of Indian Standard BIS and CGMP specification.

OUR CLIENTS

We have supplied more than 100 of our Sterilizing Tunnel to various clients across India as well as Nepal, Bangladesh, Africa & Russia

Best Quality & Service Emission Monitoring Instruments

We Offer the Following Range Of Products :

- 1) Gas Transmitter & Monitoring System for Various Application.
- 2) Multi - Gas Detector with upto 8 Sensor Technology in one compact Instrument.
- 3) Purity & Process Analyzer for Various Industries.
- 4) Online Stack Emission Gas Analyzer (Specialized).
- 5) Online Ambient Air Quality Monitor.
- 6) Fixed Dust Practical & Broken Bag Detectors by using Triboelectric Technology.
- 7) Online Remote Calibration Panel.
- 8) Online Connectivity for CPCB & MPCB Or any other state pollution control board.
- 9) Gas Calibration Kit.
- 10) Annual Maintenance Contract (AMC).
- 11) Water Analyser (COD , BOD , Ph , TSS) Etc..
- 12) Weather Monitoring System.

Your Capsule Filling and Tablet Press Start Here

Your premier source for top-quality pharmaceutical machinery in India.

From precision engineering to unmatched customer satisfaction.

Automatic Capsule Filling Machine

Empty Capsule Loader

Benefits of Automatic Capsule Filling Machine

Designed as per the cGMP standards
High production capacity
Enhanced accuracy in filling
User-friendly controls
Low maintenance operation
Minimal downtime

Semi Automatic Capsule Filling Machine

Manual Filling Capsule

Powder Filling & Pallets Filling Machine.

- * Automatic Empty Capsule Loader.
- * Capsule Polishing Machine.
- * Capsule Damage Remover Machine.
- * Semi Automatic Capsule Counting Machine.
- * Dust Collector.

" PRAISE THE LORD "

JAKIM PUMPS

Since : 1996

(ISO 9001 : 2015 Certified Company)

Office & Works : Unit 1 : Gala No. 23/1, Laxmi Nagar No. 2, Near Laxmi Industrial Estate, Bangur Nagar,
Goregaon (W). Mumbai-400 104

Unit 2 : Gala No : 01, Super Star Compound, Laxmi Indl . Estate, Bangur Nagar , Goregaon (W), Mumbai - 400 104.

We Introduce ourselves as one of the Leading Manufacturers & Exporters of Chemical Process Pumps
& All Kinds Of Industrial Pumps & Equipments.

**Oil Sealed Rotary
Vaccum Pump**

**Diaphragm Type Metering
Dosing Pump**

**Plunger Type Metering
Dosing Pump**

Centrifugal Pump

High Pressure Pump

Gear Pump

Lobe Pump

Multistage Pump

We Also Manufacturer

Electronic Dosing Pumps / AOD Pumps / Barrel Pump / Drum Pump.

Various MOC available as per Chemical Applications

Pumps also available in GMP Model.

*** 24/7 Service Available * Custom Painted**

*** 1 Year warranty * 100% Quality Gauranteed**

*** Pump delivered at your Preferred Location**
